

# TWINKLE TWINKLE LITTLE STAR

**A**  
twinkle twinkle little star

**A**  
how I wonder what you are

**A**  
up above the world so high

**A**                    **E**  
like a diamond in the sky

**A**  
twinkle twinkle little star

**D**                    **E**                    **A**  
how I wonder what you are

each night when the sky goes dark  
a little star makes its mark  
the very first one of the night  
shining sure, beaming bright  
I make a wish right then and there  
for peace on earth and everywhere

each morning at the break of day  
the birds sing a song  
while the stars fade away  
except for the one star rising true  
giving life to me and you  
thank you sun for shining strong  
and standing by us all day long

**A**  
come on tonight, we can try

**A**  
to count the stars up in the sky

**A**  
come on tonight, we're gonna see

**A**  
if we can count to infinity

come on tonight, we can try  
to wish for wings so we can fly  
come on tonight, we're gonna see  
if we can live our fantasy

come on tonight, we're stardust  
come on tonight, we're magic  
come on tonight, we're dreamers  
come on tonight, we're believers  
we're growing

glowing

flowing

flying

we're glittering

glimmering

shimmering

shining
